-(15. ve 16.soruları metne göre cevaplayınız)

A social network is a website or service where you can talk to or communicate with other people. You can upload your photos and share personal information on your profile page. Social networks connect people with the same interests like music, sports, cinema etc. You can make friends through these sites. Social networks are fun, but they have negative effects, too. First, you can be an addict. Second, some bad people can steal your information. So, you should learn how to use them safely. Finally, online friends can be dangerous, because they are not real friends. Be careful when you choose your online friends and never agree to meet them in person.

(23., 24. ve 25. soruları metinlere göre cevaplayınız)

Frank

I have a PC and I'm always online. I use the Net to keep in touch with my friends. I spend most of my time in social networking sites and I have many Internet friends from all around the world.

Sally

I always prefer meeting my friends from school in person and I never use the Net to make Internet friends. I only use the Net as a translator for my English homework.

Denis

I use my mobile phone to speak with my classmates. I use my PC only when I watch films and play online games, because I think they are entertaining.
